There were letters of introduction to Captain Brown presented to him by Aaron Stevens, one of the insurgents, in which he was commended to him as worth a dozen ordinary men in a fight. The writers of these letters stated that they had engaged him to join the expedition, which he had agreed to do on condition that they would give his wife, who lives in Missouri, \$100 to support his tamily during the winter, pay some small debts for him and pay his traveling expenses to Harper's Ferry. THE CUBANS FRIGHTENED AT A CATTLE STEAMER. A correspondent of the New York Herald writing from Havana under date of Sept. 23d, says: A friend of mine, who resides near the Admiralty in his city, tells me that, observing unusual stir and activity there—boats coming and going, and signals being made to and from the Admiral's ship—he was led to inquire of a naval officer, "what was up?" He received an answer, under a pledge of secrecy, that a telegraphic despatch had been that morning received to the effect

American people, in which Englishmen can hardly be brought to take an interest, while their adversaries give play to all the excitement peculiar to them, that we can hardly be surprised at the course which the so-called San Juan dispute has taken. The American papers, and perhaps the American Government, will judge of the course most advantageous to themselves by the tone of public opinion in England. It is to be feared that the people of this country, immersed in the vortex of European politics, will treat the San Juan question as they have treated many others, and that the Cabinet of Washington will find the apathy of British opinion an excel-lent ally in dealing with a British Minister. It is with no wish to sow dissension between kindred nations, or to be wanting in that courtesy which characterizes modern politics, that we express a hope that on this question the Government of Great Britain will be found true to itself and to those hardy and trusting adventurers who, under the supposed protection of the British flag, have spread themselves over the globe. We are totally unsuccessful in concealing from the world that the habitual practice of the English Government in yielding to every demand of the American Government, and every usurpation of American enterprise, tends to lower the esteem in which the name of Britain is held, and the effect on the dependencies of the English Crown is farmore important than any notion which may be encouraged in the minds of Frenchmen or Russians. we are not here called upon to pronounce dogmatically. The evidence, to our thinking, inclines strongly in favor of England. There can be no doubt that the "channel." which was used in 1846, the period of the treaty, was one which placed the island under the dominion of Great Britain. The claim of the Americans arises from the fact that since that time another channel has been used by steamers, and has become equally well known with the former. But that the question ought to be what was the channel within the meaning of the treaty of 1846 is plain enough. However, the dispute is like another dispute—one to be settled by negotions where scientific measurement and legal interpretation have failed. It is and will attract great attention throughout the country.

They laid in large supplies, and collected materials for building barracks and constructing fortifications; they encouraged squatters to occupy the island, and finally a number of American troops were landed, with a large quantity of ammunition, while reinthe Presidency. Let them thought it better to confine himself to a well-witten protest, which probably his opponents laughed at.

The American officer who has committed this act was

induced probably by the expectation that it would make

him great. Harrison, Jackson and Taylor were raised

to the Presidency by their warlike exploits. The commander who rescued a Hungarian some years since from an Austrian brig would probably have been started for the same high office if he had only taken the precaution of firing into his enemy; what question, then, that if Harney had been superior in an encounter with the Britishers he would have been sure of some great posi-tion in his native State, if not in the Councils of the Federation? Governor Douglas has probably deprived the bold commander of his merited reward by not sending against San Juan a force so small that it could have been readily repulsed, and left the gallant American free to give a glowing narrative of his brilliant exploit. We have every reason to hope that President Buchanan—a man of sense and judgment—will see the necessity of treating this suject in a proper manner, and leaving the Pacific boundary between the two nations to the decision of diplomacy. We cannot suppose that the Americans, however elated at their presumed victories over the English on American questions, will think themselves powerful enough to withstand the arguments that could be brought against them, if England, peaceable enough while the semblance of legality is observed, were to learn that the Republic was disposed neither to recede or negotiate. No kind of boasting or hectoring is, we hope, likely to have any effect on the Government of this country. We have yielded more than we ought on many American ques-tions, simply because the public opinion of the country cannot be enlisted in these paltry disputes while the des-tinies of the world are being decided at our doors. But there has probably never yet been an instance of a spot in dispute betwen the two nations which has been violently seized by one of them on the sole responsibility of Mount Holly and vicinity on Saturday afternoon last. Some of the hail stones weighed half a pound, and measured from eight to ten inches. ### DEMOCRATIC MEETING.

We are requested to give notice that in pursuance of the recommendations of the Democratic State Executive Committee, a meeting of the Democratic citizens of New Hanover County will be held at the Court House, in the Town of Wilmington, on Tuesday Evening, Dec. 13th, 1859, being Tuesday of Court week, at 8 o'clock, for the purpose of appointing delegates to a Democratic State Convention, to be held in the City of Raleigh, on Thursday, March 8th, 1860; and also for the appointment of delegates to a District Convention to be held at such time and place as may hereafter be fixed upon, to select delegates to represent this district in the next National Democratic Convention :- Also to appoint a Democratic Executive Committee for this County.

#### Democratic Organization.

It will be seen that for reasons satisfactory to them and after due consultation with the members of the Democratic party generally, the Democratic State Ex ecutive Committee have fixed upon the 8th of next March, as the time for holding the next Democratic State Convention. This early day has been fixed upon for good reasons, among others, because it is believed that the Democratic National Committee will appoint an earlier day than usual for holding the National Convention, in order to obviate the objections and relieve the fears of those who, living at a distance, and not practically acquainted with the climate of Charleston, might be deterred from visiting that City at the time at which conventions have been held of late years. It is probable that an early day in May will be fixed upon for the meeting of the Charleston Convention. Hence one reason, among others, for fixing a somewhat earlier day than usual for the meeting of our State Convention.

The Executive Committee recommend that meetings be held in the different counties in the State for the purpose of appointing delegates to the State Convention. convention being charged with the nomination of a candiat large to represent the State in the National Democratic Convention to be held in Charleston; the district | men away from the truth. conventions being charged with the selection of two delegates and alternates from each district to the Charleston Convention. The Executive Committee further suggest, that an executive committee of five be appointed by the county meetings, in each county, to co-operate and correspond with the central committee and the other county committees, which may be appointed to promote the success of the Democratic party of North Carolina.

We have placed this matter pretty fully before our readers, in order that their attention may be properly drawn to it. Our usual time for holding meetings, in New Hanover, for the appointment of delegates to State conventions, as well as for the purpose of county organization, has been on Tuesday of March county court.-Of course an earlier day must be selected, as the State convention will actually have assembled and gone, before the second Tuesday in March.

The only Court intervening between the present time and the 8th day of next March, will be December Coun ty Court. Under these circumstances we have felt it to be our duty, in accordance with request of many of our Democratic citizens, to insert a call for a meeting to be held at the Court House, in Wilmington, on Tuesday evening December 13th, 1859, at 8 o'clock, that being the Tuesday of County Court, for the purpose of for, As December Court presents the only public time at we think this call must meet the views of all Democrats who desire to co-operate with their party throughout the embroiled in deadly conflict, let the journals of reform, the

Democratic Meeting.

We find in the last Asheville News reports of Demoeratic meetings held in Henderson and Buncombe counties, in this State, for the purpose of appointing delegates to a Democratic district convention to be held at Asheville on the 30th of December next, for the purpose of appointing delegates for the 8th congressional district to the ensuing National Democratic Convention to be held in Charleston, S. C.: and, also, to appoint delegates to the Democratic State Convention.

Among the resolutions passed at the Henderson mee ng was one heartily approving of the administration of his Excellency, Gov. Ellis, and recommending his re nomination, also, one reading as follows:

Resolved, That, while we are not disposed to array our elves uncompromisingly for or against any of the promine democratic candidates for the Presidency, we are constraint od to declare that the position recently assumed by Mr Douglas, in an article contributed to Harper's Magazine. It not the doctrine of the National Democratic party on the not the doctrine of the National Democratic party on the great subject of which that article treats, and we regard it public expression of our disapprobation thereof The resolutions of the meeting in Buncombe are sub

stantially the same. The Democrats of the mountains are early in the field with a determination that harmony, unanimity and good feeling shall again prevail in their ranks, that they may

thus be prepared to make an effective struggle in the contests of next year. The News says :- "So far as the Western countihave spoken, they have endorsed most heartily the Ad ministration of our present able and worthy Governor and recommend his re-nomination. > The Times and the Morning Call hesitate not to charge management and foul play on the ground—they assert that the pistols used belonged to Terry, and that he had been recently practicing with them. It turns out that on the contrary they did not belong to Terrythat they had been in the possession of another gentle, man for a long time-that Terry had not seen them evenon the occasion of the duel, before being called upon to use them, and that if there was any difference it was in favor of Broderick, who had the choice of weapons, being the challenged party, and who also had his choice of the two pistols used. But perhaps the meanest fabrication is that in regard to the remark said to have been made by Mr. Broderick, that he fell because he opposed the extension of slavery. He never made any such remark.

The evident design of all the appeals and misrepre sentations of the opposition and abolition presses o San Francisco is to awaken sectional prejudice-to array Northern men against Southern men-to create a

feud in the Democratic party. The National of the 16th ult., in an article headed Speaking of the duello it says :--

The reading public-that is to say, the newspaper-reading public, has been so saturated, bored, tired out, and altogether wearied with Harpers's Ferry, that, having a few words to say on that subject, we have thought it best to alip them in without a head, anony-

mously as it might be called. The first thing that will strike anybody, is the very small force of the insurgents, compared with the panic created by their movements and the control they were for some time enabled to exert in a town of the size of Harper's Ferry. This is perfectly natural. Their action had all the effect of a surprise-no one could calculate their force, and no one dreamed that a handful of men not exceeding at any time fifty, would have dared undertaken such an enterprise as old Brown and his crowd did. In this connection, we may remark that recently there has been a great clamor for civil and against military superintendence, even where the character of to be so. the works carried is decidedly military. Had there been a proper military element in the superintendency at Harper's Ferry, the result would have been different,

The insurgents were disappointed in the presumed readiness of the slaves to join them. That is one consideration calculated to strike reasoning men at the North, no matter what their abstract ideas on the subject of slavery may be; for it shows them that the stories they have heard of the relations existing between master and slave at the South are wholly erroneous-that there is neither oppression on the one hand nor antagonism on

Another aspect of the case, and one that ought to be well pondered, is, that nearly all these emissaries. Brown. resolutions: Resolved, That we highly approve of the action of the Postoffice Department in advertising for Proposals for conveying the great mail between Portland and New Orleans, veying the great mail between Portland and New Orleans, by a system of continuous connections, and a guaranteed service over a route which, according to the act of Congress, shall include as many as practicable, all, the prominent commercial cities on the Atlantic seabord.

Resolved, That we respectfully bring to the notice of the Postmaster General that the offer of the great Atlantic Trunk Line, reaching from Portland to New Orleans via the

Atlantic cities, (embracing a population of many millions o citizens,) and the Fernandina and Cedar Keys Railroad, ful fills the requirements of the act, and will secure to the communities through which the mail is proposed to pass, certainty and celerity in its transmission over all other routes.

Resolved, That the claims of Florida to a rapid postal communication with the Atlantic cities northward of her, should have their due weight in the adoption of the sugger ted mail route.

Resolved, That his Honor, the Mayor, be requested to ad-

Sewing Machines. These have become an institution. In some of the chools at the North they teach the use of these instruments as a branch of academical education. How many patents there may be, we know not. Their name is legion, and for the machines of each maker or inventor the highest claims are put forth, with what truth we cannot say. Some of them are, no doubt, good machines but, after all, in the multiplicity of conflicting state ments, the best and most reliable claim is that based upon trial and experience, and to the benefits to be derived from this claim, most abundantly substantiated, Singer's Machines, advertised by Mr. Baldwin, are fully entitled. They have their witnesses by tens of thousands—each machine speaking for itself. Without disparagement to others, some of which we believe are

A Little Variety. the President and Directors of the Atlantic and North Carolina Railroad Company, for 1856, page 6, you will

find the following geographical information: "In approaching Shepard's Point, the road, for THREE MILES passes through Carolina City." In your discussions with the Editor of the Newbern Progress, you should bear in mind they have very large

cities down that way. There is a very ingenious man in our county. If he were to go to England, the distinguished civil engineer, Stephenson, would have to play srcond fiddle to him.-Not long ago he took his clock to pieces to repair it; he put it together again, snugly, having enough left to make another; and out of this it was no burthen to his ingenuity to construct one, which he accordingly did.

But the beauty of it is that neither of them will run. You have heard of the individual who said, "you must think a fellow has got a hundred shirts." thing reminding you of that occurred with Pete Pitman the other day. He had but one shirt to save his life, and wore it, as usual, until it got so dirty that he had to sleep without it one night, when his mother washed Pamlico, met in the Court House in Newbern on Monday last, Judge Biggs on the bench. We believe but one case A neighbor meeting him, says :- " Hallo Pete, you've got a clean shirt on this morning." "Humph," replied

Pete, " you must think a fellow aint got but one shirt." A gentleman, not far off, has a wife who is a match for old " Toodles" in his coffin spree. He, the husband, not long since asked her, "where was that nice pair of sheets she bought some time ago, in Wilmington?"-Well," she said, with perfect unconcern, and to his complete horror and dismay, " well, I put them by, I though they would be so handy and nice in case some one should die in the family." The perfect "mauvais gout" of the idea may be better comprehended when it is recollected the white family consists of but husband, wife and

an only child. There was an Italian but recently imported. who sold apples at the Navy Yard gate, in Portsmouth. He would hold up two of the apples, with arms extended gestures, and cry out at the top of his voice, "Char por che chay! char por che chay!" "What does he mean?" said a gentleman one day,

stepping up. He means two for three cents," said a bystander. "Yah, yah, yah!" said the Italian, very rapidly, in a ower tone. "Yah, yah, yah! char por che chay, char por che chay; mochy chapy por char por che chay."-W ich was certainly very intelligible Anglo-Italian.

The following is well authenticated, but has never before been published. No irreverence was intended when it occurred, nor is any meant in this relation of it :-In one of the western Counties of the State was a quite obscure family, which claimed two sons who to undoubted honesty added a laudable ambition to rise in the world. The elder of the brothers, Thomas, so far succeeded as to become a local preacher of the denomination to which he belonged, which raised the pride of the family considerably; in the mean time he mooved to Mississippi where he still held his clerical position.— Robert, the younger, sped along on the road of his aspirations, until he reached the respectable summit of Com mon School teacher, becoming one of those massive pillars upon which, our triend Wiley enthusiastically hinks, rests the destiny of the Old North. Robert hoped some day to attain to the acme of renown enjoyed by his brother, in whom he felt great pride; and so be practiced praying and exhorting in public when opportunity offered. On one occasion he was called on by the regular minister to lead in prayer; the following was a portion of that prayer:

"Oh Lord. Thou knowest, ah! that thy poor unworth servant is but a bad hand er, ah! in making praise and supplication, ah! That he is but a new hand at the bellows, and a beginner in the work of the Sanctuary, ab But O Lord, Thou knowest too, ab, that I have a deary beloved brother in the Massissippy, er, ah! that can split hairs at it, any time ah !"

The Presbyterian Synod will be held in Wilmington early in November. Our citizens intend doing everything in their power to make comfortable all who may favor our

city with their presence. Of course there will be a large number of strangers from all parts of the State, some with one object in view-some with another. There will be a goodly number of clergymen, and more or less of all the multitude will need some article of dress. We take great pleasure in recommending the readers of the "Journal" to O. S. BALDWIN, the largest Clothing merchant in the State. He has the most complete outfitting establishment in the Southern country, and his goods are always reliable—always as represented, and sold at the lowest prices. We cheerfully recommend our friends and patrons to patronize his deservedly popular house.

SANDS' SARSAPARILLA, THE ACCUMULATING TESTIMONY Of thousands in favor of the superiority and effiacy of this preparation for the cure of Scrofula, Old Ulcers, Eruptive diseases, &c., is so conclusive, that the most despairing need no longer doubt. The following is from one of the

ed for a long time with Sore Head and Eyes, and by using your Sarsaparilla was entirely cured, other medicines an Sarsaparilla's having failed to relieve her. Having used it and tested its efficacy, I now confidently recommend it in preference to any other preparation; and I find that per-sons after they have used it, invariably want the same article again, whenever they require a medicine for which this s recommended. J. FLINT, M. D.

> REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING OCTOBER 27TH, 1859.

TURPENTINE-Has been brought in sparingly for some weeks. and since our review of Thursday last scarcely enough has arrived for distilling purposes. There has been a fair enquiry throughout the week, and parcels have found ready sale upon reception at \$2 95 for virgin and yellow dip, and \$1 75 for new hard, per 280 lbs. We quote sales of only 1,376 bbls.

ROSIN .- In the market for the finer grades we have to re-

port a dull feeling during the week just ended, and, if anything, prices are a shade lower at the close. The arrivals have been light, and there is only a small stock in receivers hands, still there is little or no demand at present. In No 1 we note sales of 2,098 bbls. at \$1 55, \$2, \$2 50 to \$2 75 per bbl., as in quality. No. 2 is dull of sale, only two or three small lots (about 300 bbls.) having changed hands at \$1 25 shows a show of the past few days. Some selections are a snade lower at the close. The arrivals have been light, and there is only a small stock in receivers. Cotton—Not much on the market since last review. Sales easily made at 10½ for best grade. Flour—We note a better feeling with sales of super at \$50. Market firm. Spirits—Very little offering for the past few days. Some selections are a snade lower at the close. FRATHERS-None of consequence have been brought in for some time past, and the market is almost if not entirely bare. We note a brisk demand, and parcels would find with mdze.

Schr. J. G. Stille, Hoffman, from Philadelphia, to T. C. FLOUR.—We have no change of importance to report in the market for State brands. The quartity received for a few weeks past has been small, in consequence of which the supply on market has become materially reduced, and but little remains unsold in first hands; there is however, merely FLOUR.—We have no change of importance to report in would remark that a lot of any size would be rather difficult

to sell at these figures.

GRAIN.-In the Corn market we have to report a decided. ly better feeling under the advices from abroad, and prices have advanced. In consequence of the meagre arrivals for some time past the stock in dealers hands has become materially reduced, and is at present exceedingly light. We note an active enquiry, but in the absence of receipts no sales have taken place except in the small way. A few cargoes of prime quality would meet with ready sale at fair quotations-say 90 to 95 cents per bushel. OATS-Are in rather better stock, and at present we notice merely aretail demand. SINGER'S SEWING MACHINES. And a few reasons why they are prefarable to others THE GREAT STANDARD SHUTTLE MACHINES for FAMILIES, PLANTATION and MANUFACTURERS, are vithout a successful rival in any market in the world!

PRICE REDUCED

15th September, 1859. No. 1, formerly sold at \$100, reduced to \$90. No. 2, formerly sold at \$125, reduced to \$100.

1. They are made of Iron throughout and are not liable to the unsteady motion necessarily belonging to light Wooden Table Machines. They can be run at a high rate of Speed without the vibration naturally consequent upon the working of light Machines. They are much STRONGER. 2. All have the CELEBRATED ELASTIC TENSION. No other Machines have this very essential feature. Singer's other Machines have this very essential feature. Singer's "Tension" is acknowledged by all who have any accurate and well defined knowledge of Machinery to be the greatest exhibition of ingenuity. The tension is the exclusive property of Singer, and while others have appropriated largely of his patents, none have presumed, as yet, to use this "Tension." The perfect simplicity of the contrivance, together with the decided merit over every other construction is apparent to any one who will give the subject a moment's

is apparent to any one who will give the subject a moment's consideration.

3. The general simplicity of construction—the perfect accuracy with which they perform every species of work—the strength and durability of contrivance, seen at a glance throughout the entire mechanism, prove them to be the ma

chine par excellence! 4. They have the perpendicular action—straight needle wheel-feed (together with the pressure feed, no less meritorious,) all make Singer's interlocked stitch—only perfected by his very ingen ous "elastic tension," where the thread does not pull from a dead weight—is less liable to spring the Needle or break—all will hem, tuck, gather and stitch, fine or coarse, in a style superior to any other Machine offered. 5. Singer's Machines never fail to justify, to the fullest extent, the public confidence. Once domiciled in a family among the essentials. No one who has them in use will do without them.

6. They are universal in their application to practical work. With the same machine fine muslin may be stitched with the finest cotton thread, every description of tailoring work be done, leather stitching be executed, and each of these kinds of work be performed better than by any other machine, and at such a high rate of speed, as to produce 1,500 STITCHES PER MINUTE!

7. For Family and Plantation Sewing, these machines are vastly superior to any other. Fragile and delicate sewing machines, made to please the eye merely, are recommended for Family Use. They will not answer the purpose. Family sewing machines ought to be stronger than any o greater variety of work is required of them, and they go

into less skillful hands.

8. They are much more EASILY OPERATED than other machines, and whoever buys one, knows to a certainty that it will perform the work required.

9. The Shuttles are much larger—hold much greater quantity of thread than any others, and are LESS TROUBLE. All persons who may think of getting a sewing machine, should not trust implicitly to the exhibition of any machine as they may witness it in the hands of a skillful operat r where the machines are sold. It does not by any means follow that because you witness the operation of a sewing machine in the manulacturer's office, and see it sew well, it will be equally successful when transferred to your house, and employed upon the work you have to do. The best and safest guide in the purchase of a sewing machine, or any thing else, is to buy that which has an established reputation. No machine can be too perfect, and it will always be found to be true economy to purchase the best.

Singer's Machines cost more than others, but, in the end, are found to be much the cheapest. The work of ONE DAY y hand, can be done in ONE HOUR on these Machines!
BEING IN THE MANUFACTURING BUSINESS—daily testing here and North the practical working of SEWING MACHINES, we may be permitted to judge something of the relative merits of the various Machines now before the public. We use no other than SINGER'S, and we unhesita ingly say, No other will do for the general uses of Tailor, Planter and Family.
THE EXPERIENCE OF EVERY DAY will deepen, yea

fasten, the conviction in the minds of intelligent and careful thinkers of the South. that the Sewing Machines ADAPTED to the uses of the FAMILY and the PLANTATION—the machine SUREST IN ITS RESULTS—the machine CERTAIN TO PAY A HANDSOME DAILY DIVIDEND, in the hands of a wife, a daughter or a servant, is none other than Singer's. The day is not far distant when these machines will be intimately connected with all the leading industrial nterests of North Carolina.

WE append the following well-timed paragraph fom one

WE append the following well-timed paragraph fom one of the best conducted papers in our Country.

SEWING MACHINE AND PIANO.—We are very much pleased at the practical good sense of the Principal of one of our most fashionable Boarding-schools for Young Ladies—INSTRUCTION ON THE SEWING-MACHINE being one of the branches." regularly taught, like the piano. It is most rationally insisted upon by the admirable woman of whom we speak, that every young lady, who is likely to become a wife, should have it in her power to teach the use of the Sewing-Machine to her servant or seamstress, even if she should not find it useful (as she may or may not do) to emwife, should have it in her power to teach the use of the Sewing-Machine to her servant or seamstress, even if she should not find it useful (as she may or may not do) to employ her own hands upon it. for the use of her family. To a young wife in a rural neighborhood, particularly, where a skilful seamstress cannot always be had, the sewing-machine which is "equal to nine women," is a most essential piece of family furniture; and the knowledge of the use of it is a most valuable part even of a "fashionable education."

The very br ef and expressive note handed to us by Mr. Osgood one of our most accomplished machinists, (now in the employ of Messrs. Kidder & Martin,) speaks for itself Comment is unnecessar:

Professor Wood—Dear Sir: Having made a trial of your Hair restorative. It gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been trouled from my childhood; and has also restored my hair, which was becoming grav, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly,

ANOTHER TESTIMONIAL WILMINGTON, N. C .. )

Dear Sir: We have had Singer's Sewing Machine in almost constant use, for two years past making bags for Meal, Corn, &c.; while Mr. Mitchell has had one in his most constant use, for two years past, minimal Meal, Corn, &c.; while Mr. Mitchell has had one in his family, operated by a servant, without the trouble generally consequent upon the working of Sewing Machines.

We unhesitatingly recommend the Singer Machines for durability, and as being adapted to all the practical uses of the family, planter, &c. Being easily understood, and not liable to get out of repair. ELLIS & MITCHELL.

We deliver the above Machines in Wilmington, for the same prices they are sold for by the Manufacturers in New York, thereby making a saving of exchange, freight and insurance to the purchaser who buys from us.

The State Fair. We were present at the State Fair held last week in

try to give some slight sketch of it. Never having attended a State Fair before, we cannot, of our own knowledge, compare the event of 1859 with those of previous years. From others we learn that the late exhibition and gathering was fully equal to any which had preceded it. Thursday, 20th inst., was what might be called the "big day," being that set apart for the speaking, and for other in teresting matters, and the assemblage was really very large. We would be within bounds in saying that there were some six thousand persons present within the

grounds.

In order to give our own views of the Fair, we must rather get ahead of time and make reference here to almost the last incident during our stay. It being understood that, owing to the domestic affliction under which Hon. David Outlaw was suffering, (the loss of his wife) the Annual Address, which that gentleman had consented to deliver, must be dispensed with.-In this emergency the Executive Committee of the Agricultural Society pressed a number of distinguished gentlemen into the service, and in compliance with the request of the Committee and the call of the multitudes, brief but able and felicitous addresses were made by Hon. Daniel M. Barringer, His Excellency, Gov. Ellis, Senator Bragg, Ex-Governor Manly, Walter L. Steel, Esq., and Ex-Governor Morehead. No doubt Mr. Outlaw would have delivered a very able and instructive address, but we question whether any one man could have embodied in a single speech the amount of mingled wit and wisdom that fell from the lips of the distinguished speakers above mentioned. Differing as the addresses did, they all agreed in breathing a strong spirit of North Carolina patriotism, and all referred to the Fair in what we concurred in regarding as its most important aspect—as a gathering together of the people of the State, even more than of her products. We confess that to us this was the main attraction of the Fair Grounds. We saw the East and the West meeting and shaking hands, and we thought too, that we could see prejudices passing away and mutual misunderstandings being reconciled. This, as Gov. Ellis very justly remarked, could not have been done without the facilities of travel and communication that railroad improvements have opened up to the people, and we concur with the Governor and the other distinguished speakers in their felicitations over the progress which North Carolina has already made, and in their hopes of advantage from that which is expected to be made hereafter.

The Cadets of the Military Academy at Hillsboro' visited the Grounds on Thursday, under the command of Col. C. C. Tew, and attracted much attention by their

cobb-crushers, reaping machines, fans, etc. These occupied the centre of the grounds. One of the reapers was know. exhibited by Mr. W. A. Williams, of Wilmington. So with stock; no names of exhibitors were put on the stalls. We cannot, therefore, refer to anything save in general terms. One or two of the horses we recognized, and among them Touchstone, belonging to the Messrs. Faison of Sampson. He looked selection. [The remarks are our own.] remarkably well. Dr. Carr, of this place, had a very good Stallion on exhibition. There were some splendid for his horse Lawyer, a noble looking animal, as was thorough-bred and grade horses from Caswell, Granville, also John Turner's horse Secession, which received Alamance, and elsewhere, we suppose, for we had no way of knowing where they came from, unless we accidentally came across the owner. In the horse show, the The second to M. J. Faison & Bro., for their horse State Fair was ahead. The exhibition was a success.

The hogs were good, but not remarkable. We saw better ones last year both at Duplin and Sampson-decidedly better. This department could hardly be called a success, although not exactly a failure.

In the cattle department, too, the State Fair appeared to us to be hardly up to the mark. There were good cattle-some very good cattle, but on this point again bull was of Dr. Holt's stock originally. The Dr. rewe think our friends in Sampson and in Mecklenburg ceived the premium for the second best, and also for the can and do make exhibitions of blooded stock superior to that made this week at Raleigh. We say this with no disparagement to some very good stock that we saw, but simply in a general way, taking the show as a whole-

There were four Jackasses with very clear good voices, and any quantity of ears for music, and certain Mules is not in their line, and they ought not to attempt it. There were also sundry coops of fowls and much crowing. We are not much of a judge of these bipeds, but our notion is, that they were very fine. Two bears formed the nucleus or centre of two rings of admirers, who were quite anxious to see a fight. They were dressed in black bearskin robes, with very short coat-

a very large number of beautiful and useful articles, names and uses unknown. We saw them afar off. This Hall with its beautiful contents, and still more beautiful visitants, is altogether beyond our power to do justice to by any description. The Lord help any single gentleman who attempts it. The display of fruits was very rich. We never saw finer apples and pears. They are Shanghais, Bramah Pootras, Game Cocks, all manne getting to raise noble fruit in this State, and we are glad to see it. Near one of the entrances to the Hall we noticed a closely compacted knot, mainly composed of ladies, who were admirably regarding the skillful Little, do. for stock, J. Britt, Oats, W. D. Jones, Kye, manipulations of our friend, Mr. Barry, with one of Scoville & Godell's Sewing Machines. That and a Ma-

Sewing Machines we saw. In Farmer's Hall the show was highly creditable though we do not think, that except in quantity and variety, the articles exceeded those exhibited at the County Fairs in this section. Cotton and tobacco do came out strong, there being 22 premiums awarded—the not figure as largely at our local fairs. The worthy articles looked well at a distance. We cannot make a chief marshal, Col. E. P. Jones of Caswell, has taken the tobacco premium for years past.

The exhibition in Mechanic's Hall was quite good! C. Hege. but it might have been easily better if our people would exert themselves.

Friday, 21st instant, was the day set apart for the award and distribution of premiums. We will elsewhere awarded to A. C. Hege. notice such matters in connection with this part of the proceedings, as may be interesting to our readers. Although the articles on exhibition from this section were

in the majority in the way of numbers.

Having glanced at the Fair as presented on the ground, let us look at some of the incidents. There was the Circus crowded to death with people, and some of them very much "fatigued with spirits." "Yankee Raleigh-at least during the three first days. We will Robinson" must have made much money. In a room over the Market House, a woman was preaching spiritualism in a shrill voice. The Salisbury Brass Band, composed of good performers, was giving promenade concerts, and Frank Johnson and his Band played "get out of the wilderness" with great wind and pertinacity. Great institutions are fairs.

Henry W. Miller, Esq., delivered his Lecture on the Eighteenth Century, before a very intelligent audience. As we remarked once before, the historic detail, which forms the first part of this lecture, is, and must be drythe winding up is highly eloquent—all exhibits research and breadth of intellect.

Naturally there was great crowding and difficulty obtaining rooms or any part thereof, but when one got into a room at all, he found that if the room was crowded, the crowd was made up of the cleverest sort of people, and he was satisfied.

On the grounds we were pleased to meet Gov. Reid, looking better than we had ever seen him, and the same pleasant and unpretending gentleman that we have ever known him. Also, Messrs. Winslow and Craige of the is little changed—a thought stouter, perhaps, but the same "Tom Bragg" that the people supported with so much enthusiasm for the office of Governor. Burton Craige is a giant, with the kindest of faces on the summit of one of the most marked of frames. He has grown a good deal fleshier than formerly, and is in every way a gentleman who could not pass unnoticed in any crowd. Gov. Winslow we all know, as we do his abili- by him. We were pleased to find him in good healthlooking quite well indeed. His Excellency, the Governor, is about as usual, and his courteous manners continue to win him hosts of friends, while his clear judgment and unimpeachable integrity, secure for him the confidence of all parties. His Honor, Judge Ruffin of the Supreme Court, was also in the city-he has not been so well as could be wished. On the Judges' stand we recognised the commanding form of Governor More-

We must not forget to mention Hon. L. O'B. Branch and Col. D. M. Barringer, both worthy gentlemen and most excellent Democrats.

The corps editorial appears to have been quite nume rously represented. From the West we had the pleasure of meeting Mr. Yates of the Charlotte Democrat. and Mr. Britton of the Charlotte Bulletin, Mr. Cole of the Greensboro' Times and Col. Alspaugh of the Western Sentinel. From the East Mr. Williams of the Leisure Hour, Mr. Tumbro of the Wilson Ledger, Mr. Pennington of the Newbern Progress, Mr. Walsh of the Warrenton News and Mr. Sinclair of the Favetteville Carolinian. We had also the pleasure of paying our respects briefly to-morrow. to the venerable Dennis Hart of the Hillsboro Recorder. So much for this aspect of the Fair. As regards the Of the resident editors we saw Messrs. tween 1 and 2 years, this latter, however, to be divided between Mr. Faison and Mrs. E. A. Taylor. S. Smith and Dr. Havwood also received premiums for Devons. The show for Durhams was small. Being a larger breed and requiring heavier pastures, they are not so who have ears enough, but very poor voices. Singing well suited to the lighter pastures of the Southern States. Premiums were awarded to T. C. Roberts, Major Cren-Ayreshire Heifer, premium to R. H. Horton.

In Natives, Grades, etc., premiums were awarded to Wm. Russell, H. Mordecai, Mrs. B. F. Moore. In Work Oxen and Fat Cattle, to J. R. Dunn, Wm. Russell, E. Smith.

The exhibition of Sheep and Goats contained some good animals; still it was evident that this interest has not received the attention it deserves. We say so especially in view of the fact that one of the most enterprising and practical stock raisers in this section, told us on the ground, that he had found sheep to be among and five seconds to sulkeys. The mule and jackass races the most profitable of his stock, not for their fleece, but were perhaps the most amusing features of the occasion. for their mutton. really appear anxious to do even-handed justice.

The show of Agricultural Implements was very large.

It struck us when we looked around that a great many indeed a majority bore the names of firms outside the State painted on them as manufacturers. Who the exhibitors were did not appear from the cards attached to them. We make these remarks owing to the fact that although we saw a very large number of imple ments with the names, imprint, or trade mark of Boyder & Son, of Salisbury, we do not notice the name of this firm once among the recipients of premiums, as report ed, no doubt correctly, in the Register. We suppose they were exhibited by an agent.

### Deep River.

On enquiry, we find that the Cape Fear and Deep River works are progressing favorably under Mr. Morris's direction, quite as well as could be expected.

By the way, we have read and heard complaints against Mr. Morris, founded upon the charge that he refused to comply with the terms upon which he advertised for hands, to wit :- a dollar a day and board. The facts as explained to us are these:

plaint has arisen, selected their own places to board in the country around. When the first month was out and they came to be settled with, it was found that the cost was greater than that for which the Commission boarded the balance of the hands. The terms of the agreement not having been very precise, the different board bills were paid together with the dollar a day stipulated for, but it was stated then distinctly, that the Commission undertook to board the bands and to pay them a dollar a day, and would do so, but if the hands chose to board We are indebted to the Raleigh Register of themselves at a higher rate than it cost the Commission,

After paying this dividend and making the due appropriation to the sinking fund, there will remain a surplus of \$18,000, at the disposal of the company. The debt of the Company, bonded and floating has been reduced \$127,000 within the year.

It is a highly encouraging feature of the exhibit, that of this increase, the greater portion has been in the local business of the road. Under all the competition brought against the lower line, and all the talk against our Wilmington influence, this showing looks well, and ought to be gratifying to every true friend of the State. It certainly reflects credit upon the management of the Road. Daily Journal, 22d inst.

RESUMED - We are pleased to see that the Democratic Pioneer has again made its appearance before the pubic. Want of patronage does not appear to have had anything to do with the suspension of the paper. It was a business matter altogether, and the Editor promises that the paper will appear regularly hereafter:-

The Editor says:-"It is our determination to endeavor to make the Pioneer more worthy the patronage of the party, and we ask our friends to extend to us a beiping hand. We are upon the eve of an exciting and heated campaign, and it becomes every democrat to lend his energies to prepare for the coming struggle. The "Opposition" have now four papers in the district, and another soon to be issued, whilst the Democratic party have only two. Those two can be handsomely supported if our friends will only do their duty; they can be made efficient in the good work, if Democrats will but feel the the overland California mail of the 26th. obligations resting upon them and act accordingly. To the Democratic Party of North Carolina

The Democratic State Executive Committee having met pursuant to the call of their Chairman, after due consideration, have determined to appoint Thursday the 8th day of March as the time, and the City of Raleigh as the place for holding our next State Convention, to nominate a candidate for Governor, and appoint four delegates to represent the State at large in the National Democratic Convention to be held in Charleston. We therefore recommend that meetings be called in all the counties of the State, and delegates appointed to represent them in the said State Convention; and, also, that delegates be appointed to represent them in District Conventions to be held in each Congressional District for the purpose of electing two delegates and their alternates to represent the said Districts in the National

STEAM FLOUR MILL.-The steam Flour Mill at Salem, belonging to R. L. Patterson, Esqr., is doing quite an extensive business, for this "wooden country." Some twenty-five barrels of flour are put up daily. Mr. Patterson finds a ready sale of the bran and "shorts" at home, and also for a large amount of the flour; though he sends off large quantities of flour. The flour is packed by machinery. The aparatus for this purpose is quite simple. but does its work to perfection. The flour from this mill has a good character, at home and abroad .- Greensboro' Patriot.

NORTH CAROLINA GOODS .-- The cheapest gentlemen' wear, in our market, is of North Carolina manufacture. We efer to the Salem and Rock Island Jeans. Having business in Salem last week, we paid a visit to the large Woolen Factory belonging to F. Fries, Esq., and we cheerfully bear testimony to the beauty and durability of the cloth manufactured in this establishment. If there were enough such cloths manufactured in our State to supply our wants, and our people would foster their own interest by purchasing domestic goods, what large sums of money would be retain ed in our State, which now go North! Mr. Fries manufac tures the various grades of cloth, from coarse, heavy ne groe's wear, to the finest and nicest qualities.

THE SEWING MACHIN... of Scovil & Goodell's pattern. which I purchased from you some time since, sews with great rapidity and neatness. Its great recommendations are its simplicity of construction and its adaptation to family use. The negroes and children about the house soon acquire a knowledge of its use, and sew apparently as well as the most experienced. I have no hesitancy in recommend-ing it as a useful invention. invention.

THIS GUANO is far superior to any other fertilizer known, and of permanent value to the soil, is sold at thirty per cent. less than Peruvian Guano. Its peculiar natural combination of the Phosphates and Sulphates of Lime, enable it to restore to the soil the lost properties by constant cropping, and the Planter will be enabled not merely to reap from its use a present drop, but find his land at the end of the season, healthier and stronger, requiring a less amount of Guano for the next planting.

This guano feeds but does not stimulate to excess the roots of plants, and they are thereby enabled to withstand the effects of drought to a greater degree than by the ma
